Conference EUROPE 2024

4th June, Tuesday

08:45 a.m. - 09:30 a.m.

REGISTRATION

09:30 a.m.

Opening ceremony

Opening Keynote: The Future of Charging in Europe

Session 1: Sustainable Transportation in Retail - Best Practices

Coffee break

Session 2: E-Revolution in the Fuel Industry

Lunch break

Session 3: Unique Subsidy Prospects for Electric Vehicle Charging Infrastructure in Europe

Coffee Break

Session 4: Plugging In Safely: Balancing Security and Openness in the EV Charging Ecosystem

Workshop 1 - All you need to know about how to operate in Poland -workshops for CPOs

Workshop 2 - Toolbox for CPOs

Note: Session 4, and Workshop 1 & 2 will be conducted simultaneously

Closing remarks

04:30 p.m.

Ekoenergetyka Evening Event The Lubusz Centre for Viticulture

06:00 p.m. - 09:00 p.m.

Location

Winiarska 1;
Zabór, 66-003

E-mobility workshops at ETC

5th June, Wednesday

10:00 a.m. - 12:30 p.m.

Workshop I - High Power Charging Technologies

In this workshop, we will delve into the world of high-power charging technologies, focusing on the innovative Megawatt Charging System (MCS) designed specifically for e-trucks.

Location

Ekoenergetyka Training Center
[see on the map](#)

We will focus on discussing and seeing first-hand the challenges of both MCS and HEV infrastructure design. During the workshop, you will see what MCS infrastructure looks like and what the HEV charging process looks like in practice.

Number of participants

15 per session

Additionally, in collaboration with our esteemed partner Amphenol, we will showcase the MCS from Amphenol and its technological advancements. Together, we will explore the practical applications of the MCS in charging hubs and discuss its role in addressing infrastructure challenges associated with deploying high-power chargers.

12:30 p.m. - 01:30 p.m.

Lunch break

01:30 p.m. - 03:30 p.m.

Workshop II - Charging Station Installation Essentials

Installing charging points is a critical step in building a robust infrastructure for electric vehicles. At Ekoenergetyka, we understand the importance of equipping service teams, distributors, and installers with the necessary skills to execute this task effectively.

Join us

[press here >](#)

This workshop is a unique opportunity to take part in the step-by-step process of installing the charger yourself - from the preparation and installation of the cables to placing the charger on the foundation and connecting it.

CharIN Festival

4 - 7th June, Tuesday - Friday

5th / Wednesday

08:00 a.m. - 05:00 p.m.

Testing Day 1

06:00 p.m. - 09:00 p.m.

CharIN Evening Event

6th / Thursday

08:00 a.m. - 05:00 p.m.

Testing Day 2

7th / Friday

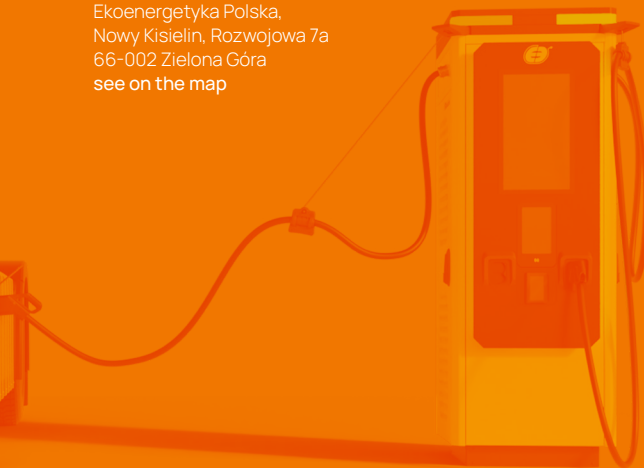

08:00 a.m. - 03:00 p.m.

Testing Day 3 Wrap up session

Location

Ekoenergetyka Polska,
Nowy Kisielin, Rozwojowa 7a
66-002 Zielona Góra

Getting to Ekoenergetyka at Zielona Góra

Closest airports are Poznań POZ, Berlin BER or Babimost IEG (Flights to Babimost are available only from Warsaw)

By train:

If you are flying to Berlin, the best way to get to Ekoenergetyka is by train. Estimated travel time is 3 hours. The best connection is:

- Train from BER Airport to Berlin Gesundbrunnen (25 minutes)
- Then, take the direct train connection to Zielona Góra (1,5 hours)
- Direct return train from Zielona Góra station to Berlin during the conference and Festival at 7:35 and 15:04

From **Zielona Góra**, take a short 15 minute taxi ride to get to **Ekoenergetyka**. Cost: approx. 10€
Address: Nowy Kisielin - Rozwojowa 7A, 66-002 Zielona Góra, Poland

Tip: There is a local **EVITY - EV Taxi** service operated entirely with EVs, for more information head to their website or call directly +48 725 700 700.

By driving:

If you prefer to drive, you can rent a car in Berlin or Poznań.

From Berlin: The route is approximately 200 km and takes 3 hours to cover.

From Poznań: take the A2 highway, and then the S3 expressway. The journey takes 1.5 hours.
Use this **code to find the location on Google Maps:** WJG9+G7 Zielona Góra, Poland.

There are car rental stands at the BER and POZ airports.
